SAMPLE WIZARD™

An easy-to-use web portal for Labware LIMS

SIMPLIFY SAMPLE SUBMISSION, TRACKING, AND RESULTS

Now anyone can easily enter samples, search and track data, and view results on any device with a browser such as a PC, laptop, smart phone, or tablet.

Sample Wizard is an off-the-shelf portal application that allows users outside the lab such as customers, scientists, and sales professionals to easily submit samples and retrieve corresponding test results. Sample Wizard is designed for non-lab users requiring little or no LabWare training.

EXTEND LABWARE LIMS WITH CLOUD TECHNOLOGIES

Sample Wizard has real-time integration with LIMS and utilizes the same architecture and technology as LabWare's web products. Because it shares the same database with LIMS, Sample Wizard can access records configured and used by the LabWare system including templates, reports, analyses and more. Users can log in directly with their LabWare credentials, can be set up with separate Sample Wizard credentials, can use an external identity management system or directory or use Single Sign-On (SSO) and not have to log in at all.

In addition, Sample Wizard has a modern web user interface which can be customized and extended, so customers can configure Sample Wizard to be a full-featured laboratory portal specific to their business.

PROJECTS
Submit new samples as a LabWare project using a simple step-by-step approach

SAMPLES
Find, view and download samples and test results

REPORTS
Run any report configured in LIMS or design your own web reports

Sample Wizard comes with these six standard modules

DASHBOARD
Track sample and project status, get messages and monitor system metrics

CONFIG
Configure pages, widgets, tables, forms, filters and more

ADMIN
Manage users, roles and security settings

SIMPLICA IS THE WORLDWIDE LEADER IN INTERFACING

WITH LABWARE SYSTEMS. WHEN LABWARE CUSTOMERS

WANT TO EXTEND THEIR SYSTEMS TO USERS OUTSIDE

THE LAB, WE PROVIDE WORLD CLASS SOLUTIONS THAT

LEVERAGE THEIR EXISTING LABWARE INVESTMENT.

SIMPLICA USES THE LATEST CLOUD AND MOBILE

TECHNOLOGIES TO CREATE APPLICATIONS THAT ARE

EASY TO USE AND ADMINISTER.
